

Chairman's Communication

Date: September 30th. 2020

Dear Stakeholders,

Post Covid-19, lockdown the world has changed. Business dynamics have changed. But we are happy to say that our customers have stood strong with us. And we at Chitra Metals have reciprocated by maintaining a complete range of products in nationwide shortage in ample quantity.

We believe for a shopkeeper to earn profit, he has to have best selling items stocked at best rates. Over the past 3 months after COVID-19, we have worked tirelessly to stock the same. Where rates have risen exponentially, we have used Chitra Advantage to make a complete range of aluminium and steel available at lowest rates in the market.

During the last 3 months, our customers who have remained connected with us have earned more monthly profit than a regular year and hence our effort to make their business recover the losses endured by them due to lockdown.

We expect a complete turn around in the next 3 months and expect to close the year 2020 on a high note in terms of profitability and turnover.

We stand by you, to make your business profitable!

Chitra Metals
