

# Chairman's Communication

**Date:** September 2nd. 2022

-----

Dear Stakeholders,

Hope this letter reaches you in the best of health.

Since last year, the Aluminum industry has seen the biggest rise and fall of prices since the last 3 decades. Many wholesalers have incurred huge losses due to the same and some have benefitted by riding the tide.

Now, in September, we expect the market to remain stable. This is a good time to grow business by capturing new markets. We at Chitra Metals, are standing in your support. We have stocked our godown for upcoming demand in this coming festive season and would suggest you to do the same. As the market has tested this water at a price range of Rs 240/kg. The price is expected to stay for the time being.

Our suggestion as part of "The Chitra Excellence", will be:

1. Update your stock in terms of short items
2. Update your purchase rates to today's
3. Create a fixed rate chart and capture the widest market possible

Now is the time to #Make Your Business Profitable

Cheers !!

Chairman
